

Serendipity: A Bibliography

Marcel Herbst
4mation

April 14, 2009

INTRODUCTION

The following is an automatically generated bibliography on Serendipity, using data contained in the *ISI Web of Knowledge*, and covering the period of 1956 to March of 2009. The data was exported in the BiBTeX-format without editing: for some reason, typographical conventions in this bibliography (pertaining to the use of majuscules) are not standardized.

Items contained herein have to part (i) of the *ISI Web of Knowledge* (naturally), but (ii) they also have to have a “topic” designation, namely, to belong to the topic of Serendipity (items without this topic designation, irrespective of their content or orientation, will not show up in this bibliography, as the discerning reader will notice).
