

Higher Education and Performance Funding: A Bibliography

Marcel Herbst

4mation

April 14, 2009

INTRODUCTION

The following is an automatically generated bibliography on the Higher Education and Performance Funding, using data contained in the *ISI Web of Knowledge*, and covering the period of 1980 to March of 2009. The data was exported in the BiBTeX-format without editing: for some reason, typographical conventions in this bibliography (pertaining to the use of majuscals) are not standardized.

Items contained herein have to part (i) of the *ISI Web of Knowledge* (naturally), but (ii) they also have to have a “topic” designation, namely, to belong to the topics of Higher Education and Performance Funding (items without these topic designation, irrespective of their content or orientation, will not show up in this bibliography, as the discerning reader will notice).
